

ACRYLIC BLOCK: CARE AND CLEANING

Acrylic blocks are made of high-quality acrylic that requires little maintenance under normal conditions. By following a few simple directions, your acrylic blocks will provide beauty and privacy for years to come.

Under normal conditions, simply wash the acrylic block with a mild soap or detergent and lukewarm water. A quality plastic cleaner can also be used. Use a clean sponge or soft cloth to avoid scratching. Rinse well with water. Pledge® furniture polish may be used after cleaning to a sparkle and make future cleaning easier.

CLEANING PRODUCTS: READ THE LABEL

When selecting cleaning products, read the manufacturers' label to ensure that the product is safe for use on acrylic. Several popular cleaning products contain chemicals that will, over time, cause cracks in the acrylic blocks.

USE:

1. Mild soap and water.
2. Products approved for use on plastics.
3. Furniture polish, such as Pledge® for an extra sparkle and to make it even easier to clean the next time.

DO NOT USE:

1. Tile cleaners.
2. Abrasive cleaners such as Tilex® or SoftScrub®.
3. Harsh cleaners - Check the manufacturer for compatibility with acrylic.
4. Benzene, acetone, gasoline, paint thinner, or any product containing isopropyl alcohol.
5. Scrub brushes.

DO NOT CLEAN in hot sun or at elevated temperatures. Architectural Products by Outwater cannot be held responsible for damage resulting from improper cleaning and maintenance
