Outwater’s new countertop partition clamps can be used to create screens, safety partitions, sneeze guards and more. This hardware was created to hold a range of different panel sizes and can be easily secured to your desk or countertop.

### Countertop Partition Clamps

- This durable acrylic sheet can be used as a desk partition or room divider
- Suitable for many different environments including schools, offices, medical facilities, waiting areas, conference rooms, cafeterias, airports, hotels, and nail salons
- Helps enforce social distancing and safety by providing a barrier between people
- Acts as a sneeze guard, eliminating contact with airborne droplets and other contaminants
- Transparent PPE barrier allows for physical separation without obstructing people's view
- Surface is easy to wipe clean and disinfect
- Made of high-quality acrylic that is non-yellowing and scratch resistant
- Radius corners have soft, smooth edges to prevent injury

SIDE MOUNT DESK PARTITION CLAMP

- Material: Aluminum
- Designed to fit panels 1/16” to 1”
- Soft interior pads keep partitions from slipping or cracking
- Designed to work with wood screws to permanently attach to the bottom of a surface
- Includes three wood screws
- Maximum surface thickness up to: 1-1/16”
- Available in Matte Chrome (*SIL) or Matte Black (*BK)

DOUBLE-SIDED DESK PARTITION CLAMP

- Material: Aluminum
- Designed to fit panels 1/16” to 1”
- Soft interior pads keep partitions from slipping or cracking
- Designed to work with double-sided workstations
- Includes four wood screws
- Maximum surface thickness up to 1-1/16”
- Available in Matte Chrome (*SIL) or Matte Black (*BK)
ADJUSTABLE MOUNT DESK PARTITION CLAMP

- Material: Aluminum
- Best of all worlds: Fits 1/16” to 1”
- Super strong all metal construction
- No need for tools: Turn screw clamp design eliminates the need for screwing
- Easily removed: Will not damage furniture and makes sterilizing panels a breeze
- Adjustable turn knob works with 1/2” to 1-3/4” thick desk/counter surfaces
- Available in Matte Chrome (*SIL) or Matte Black (*BK)

Ships as shown. Some assembly required.

PDK-05 clamps can be mounted vertically or horizontally.

English measurements converted from metric. Metric is the most accurate.
ADJUSTABLE MOUNT CUBICLE PARTITION CLAMP

- Material: Aluminum
- Best of all worlds: Fits 1/16” to 1”
- Super strong all metal construction
- No need for tools: Turn screw clamp design eliminates the need for screwing
- Easily removed: Will not damage furniture and makes sterilizing panels a breeze
- Adjustable turn knob works with 1/2” to 1-3/4” thick desk/counter surfaces
- Available in Matte Chrome (*SIL) or Matte Black (*BK)

FREE STANDING DESK PARTITION CLAMP

- Material: Aluminum
- Best of all worlds: Fits 1/16” to 1”
- Free-standing mount allows you to create a temporary barrier virtually anywhere
- Won’t slip or slide: Non-slip pads on the bottom
- Easily removed: Will not damage furniture and makes sterilizing panels a breeze
- Available in Matte Chrome (*SIL) or Matte Black (*BK)

English measurements converted from metric. Metric is the most accurate.
Outwater’s AT Tubing system consists of a series of tubes and connectors that can be joined together to create a wide range of screens and partitions to help promote social distancing and keep your employees and patrons safe.

There are a variety of angled, multi-sided connectors that will allow you to create any type of structure you may require, such as partitions for gyms and waiting rooms, or screens for desks and service counters.

The beauty of the system is how easy it is to assemble. Using the AT Tubing systems’ various components even those without prior experience can quickly fashion all types of structures simply by fitting the system’s components together.

Outwater’s AT Tubing system is completely toolless and available in anodized and black finishes.

CREATE YOUR OWN PARTITION SCREENS

By combining Outwater’s AT Tubing and adhesive backed stabilized T-Base, you can create your own 2-Way 90°, 2-Way 180°, 3-Way, and 4-Way partitions.

AT Tubing can be secured directly to your surface using Outwater’s double star insert and a hanger bolt.

Add an end cap to give the AT Tube a clean finish.

THE FINISHING TOUCHES
FREE STANDING DESK SCREENS

Outwater's free standing desk screens are semi-permanent structures designed as a personal screen. The screen's stabilized feet allow them to stand on their own with no screws or adhesives required, keeping your surface in pristine condition. They are also lightweight allowing for easy transportation.

These screens are ideal for office desks, service desks, reception areas, countertops and tables.

INTRODUCING THE DECO-DEFENDER

In the midst of the COVID-19 pandemic, Outwater Industries now offers protective partitions and barriers. Perfect for restaurants, office spaces, fitness centers, and more. Keep your customers and staff safe with a stylish privacy barrier that complements and enhances the beauty of your space.

- Overall size: 60” tall x 48” wide
- Choose the insert size; 32” x 48” or 48” x 48”
- Choose the stock art from our library (outwaterphotogallery.com/laminates) or, provide your own art/logos for custom options
- Components cleanable with anti-viral/heavy duty cleaners
- Stain, fingerprint, abrasion and chemical resistant
- Lightweight and easy to move
- Made in the USA using aluminum frames and translucent FRP (.060” thickness)

HOW TO CHOOSE YOUR GRAPHICS

FROM OUR IDEA LIBRARY

Choose from our extensive idea library, where hundreds of images have been specifically developed to work with our products.

OR CUSTOM GRAPHICS

One of the advantages of our services is the ability to customize the images within our idea library or you can create your own unique artwork.

Visit outwaterphotogallery.com/laminates for our idea library.
Outwater’s acrylic panels are perfect for divider panels, semi-private panels, wall panels, deco defender inserts and more. No matter how the panels are used to divide space, the collection’s visual weightlessness doesn’t divide attention. It’s truly the icing on the cake of any room design.

- Easy-to-install
- Cut-to-size available
- High Impact, abrasion & chemical resistant properties

More patterns and styles available. Visit outwater.com for our full line of frosted acrylic panels.

**Typical Assembly**
- The above illustration depicts the typical way that these components fit together to create a standard sneeze guard partition.

**Fit 1/8” Material with Our Non-Skid Pads**
- Note that a flange can be used in lieu of the insert and bolt combination to provide a finished appearance.

Our partition clips are designed to work with the sizes indicated. 1/8” panels can be used if our adhesive-backed non-skid pads are applied to both parts of the clip.

NS-3232-4
The FOGA® system allows you to create sneeze guards, protection screens, and large scale social distancing barriers and shields to keep you and your customers safe. This PPE framing system does not require any mitering and works with acrylic sheets ranging from 1/16” to 3/8” thick. The patented connectors and channels in the FOGA® system can be installed with a single hex key and the anodized aluminum finish is easy to clean in any situation.

SUPER VERSATILE • ONE TOOL ASSEMBLY • ANGLES FROM 90° TO 270°
Outwater Industries keeps a collection of products in stock to fulfill any of your PPE needs, including our Clip Together Protection Systems. These products can be easily used to create protection screens, partitions, and sneeze guards for schools and business. We offer versatile adjustable corners as well as metal and plastic panel connectors, a plastic stabilized T-Base, and partition extrusions.

**THE OUTWATER ADVANTAGE**

Our adjustable corners can be used to connect multiple panels and can create angles from 90 up to 160 degrees. Outwater’s exclusive dual durometer technology features soft ribs inside to grip the panels snugly without adhesives or screws and fits larger panels.

Outwater’s adhesive backed partition extrusions offer a strong bond to the surface they are adhered to while not damaging the surface. The adhesive residue can be easily removed with household cleaning solutions.

**COMPLETE PROTECTION. NO GAPS = NO GERMS.**

Gaps between acrylic panels allow harmful germs to pass through.

Outwater’s adjustable corners seal these gaps ensuring you are completely protected.
Outwater Industries has developed four countertop protection kits to help foster social distancing and protect work or office spaces without obstructing view. Included are polished acrylic panels with rounded corners to prevent injuries, as well as our adhesive-backed T-Base to firmly hold the panels and adhere to the surface without tools. Easy to remove and sterilize, these kits are perfect for desks, reception areas and more.

**RIGID L-SHAPE**

**KIT INCLUDES:**
- 2 Rounded and polished acrylic panels
- 1 Full-length corner channel
- 2 Stabilized adhesive-backed T-Bases
