CARVED PIERCED MOULDINGS

2 Ft. Lengths, Available In Hard Maple, Red Oak, And Cherry.

Our carved wood pierced mouldings have an innovative dowel system for creating a continuous run of multiple pieces. Apply wood glue to both ends of the dowels (sold separately). Insert into pre-drilled holes on either end of the two pieces to be joined. Space pieces proportionate to the design repeat. All pieces are sanded and unfinished - ready for staining or painting. The dowels blend into the pattern for a consistent, uninterrupted look. Holes on either side of the moulding can be plugged by gluing the dowels in place, then cut to fit and sand flush for a continuous look.

Floating Shelf Hardware

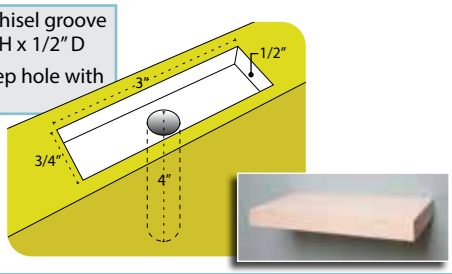

Steel Shelf Support

- Minimum 1" shelf thickness
- Hold up to 10-15 lbs. if mounted to stud
- Comes with complete installation instructions

FFS-10

- Route or chisel groove 3" L x 3/4" H x 1/2" D
- Drill 4" deep hole with 10mm bit

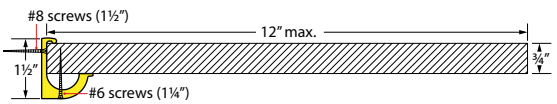

Suspended Wood Shelf Bracket

Provides Unobtrusive Support for Wood Shelves

Material: Aluminum

- Provides exceptionally strong low profile support
- Supports static loads up to 25 lbs. per ft. (When properly anchored and installed)
- Brackets supplied with pre-drilled countersunk holes 16" on center
- Brackets are drilled at each end for retaining shelf after installation
- Mounting screws not included
- 8 ft. lengths available, please inquire
